Administrator  
Housing and Community Facilities Programs

SUBJECT: Single Family Housing Guaranteed Loan Program  
Debt Ratio Waivers and Compensating Factors

PURPOSE/INTENDED OUTCOME:

The purpose of this Administrative Notice (AN) is to clarify RD Instruction 1980-D, Section 1980.345(c), (7CFR §1980.345 (c)), with respect to debt ratio waivers that are supported by acceptable compensating factors. This guidance applies to manually underwritten loan files and Guaranteed Underwriting System (GUS) files that receive a “Refer” or “Refer with Caution” underwriting recommendation. This AN does not apply to GUS files that receive an “Accept” underwriting recommendation or an “Accept” underwriting recommendation that requires a “Full Documentation” loan submission. The effective date of implementation has been delayed to provide lenders sufficient time to make changes to their work processes.

COMPARISON WITH PREVIOUS AN:

There is no previous AN on this subject.

EXPIRATION DATE:  
February 28, 2014  

FILING INSTRUCTIONS:  
Preceding RD Instruction 1980-D
IMPLEMENTATION RESPONSIBILITIES:

In accordance with RD Instruction 1980-D, Section 1980.345(c)(3), (7 CFR §1980.345(c)(3)), applicants have adequate repayment ability when the proposed principal, interest, taxes and insurance (PITI) to income ratio is equal to or less than 29 percent and the total debt (TD) ratio is equal to or less than 41 percent. The published maximum authorized ratios are 29/41 percent (PITI/TD). However, Section 1980.345 (c)(5), of RD Instruction 1980-D, (7 CFR §1980.345(c)(5)) states, “If the applicant’s TD and/or PITI ratio exceed the maximum authorized ratio, the Lender may request Agency concurrence in allowing a higher ratio based on compensating factors.”

Effective May 1, 2013, Agency concurrence of a debt ratio may be granted if all of the following conditions are met:

1. The PITI is between 29 and 32 percent or the TD ratio is between 41 and 44 percent;
2. The credit score of all applicant(s) is 680 or greater; and
3. At least one of the acceptable compensating factors listed below is identified and supporting documentation is provided to the Agency.

Acceptable Compensating Factors and Supporting Documentation:

- The proposed PITI (proposed housing expenses) is equal to or less than the applicant’s current verified housing expense for the 12 month period preceding loan application. Verification of housing expenses may be documented on a Verification of Rent (VOR) or credit report. The VOR or credit report must include the actual payment amount due and report no late payments or delinquency for the previous 12 months. Rent or mortgage payment histories from a family member will not be considered.

- Accumulated savings of liquid assets or cash reserves available post loan closing are equal to or greater than 3 months of PITI payments. A Verification of Deposit or two consecutive bank statements, dated within 45 days of loan application, that document the average balance held by the applicant is required. Cash on hand is not eligible for consideration as a compensating factor.

- The applicant(s) (all employed applicants) has been continuously employed with their current primary employer for a minimum of 2-years. A “Request for Verification of Employment” (VOE) (Form RD 1910-5, equivalent HUD/FHA/VA or Fannie Mae form, or other equivalent), or VOEs prepared by an employment verification service (The Work Number, etc.) must be provided. This compensating factor is not applicable for self-employed applicants.
Debt Ratio Waiver Request and Agency Approval:

Debt ratio waivers must be requested and documented by the approved lender, otherwise the loan file will be denied. The Agency will review the debt ratio waiver request when all of the following conditions are met:

1) The lender requests Agency concurrence with the debt ratio waiver by submitting a signed underwriting analysis that captures one or more of the above compensating factors. Lenders may utilize Fannie Mae 1008 / Freddie Mac 1077, “Uniform Underwriting and Transmittal Summary,” or similar form;

2) The PITI is between 29 and 32 percent or the TD ratio is between 41 and 44 percent;

3) The underwriting credit score is 680 or greater for all applicants; and

4) The lender provides evidence of the compensating factor(s).

The Agency will notify the lender of concurrence with the debt ratio waiver request by issuance of Form RD 1980-18, “Conditional Commitment for Single Family Housing Loan Guarantee.” The Agency must check the ratio waiver box in the Guaranteed Loan System for manually underwritten loans or on the USDA Administration page in GUS for “Refer” or “Refer with Caution” underwriting recommendation files. All supporting documentation of the compensating factors must be imaged as an essential document in the Rural Development Imaging Repository.

Summary

There will be no exceptions to the defined ratio thresholds and minimum credit score requirements. Only the compensating factors listed in this AN with supporting documentation will be considered for Agency concurrence with a debt ratio waiver.

This AN does not apply to any GUS loan file that receives an “Accept” underwriting recommendation.
