USDA RURAL HOUSING SERVICE

Fiscal Year (FY) 2017

Executive Summary

The Housing Assistance Council (HAC) presents an overview of the United States Department of Agriculture (USDA) Fiscal Year (FY) 2017 USDA Rural Housing program obligation activity in this publication, USDA Rural Development Housing Funding Activity: Fiscal Year 2017 Year-End Report.

Since the 1950s, USDA has provided financial assistance for the construction, repair, and affordability of millions of homes for low- and moderate-income rural Americans. USDA accomplishes this activity through its Rural Development (RD) agency. In FY 2017, USDA obligated 149,860 loans, loan guarantees, and grants totaling about \$20.7 billion. Since the first USDA housing loan was made (around 1950), the agency has funded the construction, purchase or repair of over 4.9 million rural housing units representing \$301 billion.

Beginning in 1978, USDA also provided funding for rental assistance to help tenants better afford to rent housing in agency-financed multi-family housing units. In FY 2017, USDA obligated 308,060 annual units of tenant assistance representing about \$1.39 billion through the combined total of the Section 521 Rental Assistance and the Section 542 Rural Housing Voucher programs. Since the late 1970s, USDA funded over \$23 billion for rental assistance and tenant vouchers representing 3.29 million annual units.

USDA increased obligations in many of its housing programs over the FY 2016 levels, fully utilizing its funding in most programs with a several exceptions as noted below.

Single Family Housing

Section 502 Homeownership loans have been the center of USDA's single family housing programs. Providing both direct and guaranteed mortgage assistance, the agency serves low- and moderate-income households. The Section 504 Repair and Rehabilitation program provides low-interest loans and grant funding for very low-income (VLI) households to help them improve or modernize their homes and remove health and safety hazards.

Section 502 Loan Guarantees Increased and Continue to Dominate RD Single Family Housing Lending. USDA Homeownership activity has shifted away from direct lending over the last 20 years. The Section 502 Guaranteed loan program, the largest of the Single Family Housing programs, obligated \$19.3 billion (13 ,071 loan guarantees.) This is about \$2.92 billion (17,387 loans) more than last year. In October 2016 the loan guarantee fee decreased from a 2.75 percent upfront fee plus a monthly 0.5 percent fee to an upfront fee of 1 percent plus an annual fee of 0.35 percent. This helped to reverse a decline in obligations from the previous year. The average income for a Section 502 guaranteed loan borrower was \$59,191 in FY 2017 (\$57,962 in FY 2016).

Full obligation of the Section 502 Direct program. For the Section 502 Direct program, USDA obligated about \$1 billion (7,187 loans) in loan obligations in FY 2017; about \$41.7 million (98 loans) higher than last year. The appropriation level was about \$100 million higher in FY 2017 than the year before but the agency transferred about \$58 million in funding from other programs into the Section 502 Direct loan program in FY 2016. USDA obligated nearly \$381 million for VLI loans which represents about over 38 percent of the obligated funds. The average income for a Section 502 Direct loan borrower was \$32,592 in FY 2017. (\$30,911 in FY 2016)

Section 504 Loan Obligations also Increased in Each of the Last Two Years. The Section 504 Repair and Rehabilitation programs obligated 3,431 loans representing \$19.6 million. This is 269 more loans or \$2.2 million higher than last year. There were 4,763 Section 504 grants to assist elderly very low-income households in removing health and safety hazards or improve accessibility totaling about \$28.9 million. This is \$1.8 million (247 grants) fewer than obligated last year. The average income for a Section 504 Direct loan borrower was \$15,508 in FY 2017. \$14,723 in FY 2016). For Section 504 Grants, the average income was \$14,633 in FY 2017 \$13,986 in FY 2016).

“Income Banding” Demonstration Program Continues. In FY 2016, USDA implemented a demonstration program for its Single Family Housing programs in 23 states and territories. Under this demonstration – which is in its second year, income eligibility determinations are based on a two-tier income structure using HUD’s four-person income level for households of one to four persons and the eight-person income level for households with five to eight people. For example, if the HUD low-income limit for a four-person household in a certain county is \$31,500. In this instance, households of one, two, or three persons would also qualify as low-income at \$31,500. This expands the pool of income-eligible households who can qualify for the programs.

Other USDA Single Family Housing Activity. In the Section 523 Self-Help Housing grant program, the agency obligated 35 grants (\$27.6 million) and 17 technical and management assistance contracts (\$8.98 million) compared to 36 grants (\$22.1 million) and 5 contracts (\$6.4 million) last year. The increase in the number of contracts in FY 2017 reflects partial funding due to continuing resolutions and other budget uncertainties. The average income for a Section 502 Self-Help borrower was \$35,482 in FY 2017 (\$33,643 in FY 2016).

There was also a \$369,501 loan for the Section 524 site loan program.

Multi-Family Housing

Guaranteed loans through the USDA Section 538 program have been the most significant source for agency financed new construction rental housing units. This program does reach some low- and very low-income renters but it does not provide tenant subsidies (rental assistance funding) for the properties financed. Most funding in the Multi-Family Housing programs has been directed to the repair and rehabilitation of older Section 515 Rural Rental Housing properties. As the Section 515 loan portfolio continues to age, the loans on these properties are maturing or reaching the final payment. When the Section 515 loan is paid off, the property and its tenants no longer qualify for Section 521 Rental Assistance.

Fewer New Construction Units Financed in FY 2017. USDA obligated 106 Section 538 Guaranteed Rental Housing loans this year totaling over \$176.9 million. This is 13 fewer loans and nearly \$9.9 million less than last year's totals. Of the funds obligated in FY 2017, \$86.3 million was used in combination about \$445 million on leveraged funding to finance the construction of 2,861 units. For the Farm Labor Housing program, 21 loans for nearly \$34.9 million and 6 grants (\$8.2 million) were obligated in FY 2017. Last year, there were 20 FLH loans and 11 grants representing about \$32.1 million and \$15.7 million respectively. Farm Labor funding in FY 2017 was financed 991 new construction units for farm laborers compared to 1,006 new construction units.

Primary Use of Multi-Family Direct Loan and Grant Funding Continues to be for Rehabilitation of Existing Section 515 Stock. The remainder of the Section 538 and Farm Labor housing funding was used for rehabilitation of Section 515 units. In addition to these funds, all the Section 515 funding (31 loans totaling \$35 million) was used for rehab. There were also 33 Multifamily Housing Preservation & Revitalization (MPR) loans (\$26.8 million) obligated and 3 MPR grants (\$102,561), a significant decrease from last year. About \$3.7 million of MPR funding was used for loan deferrals and \$23.2 million was used for soft second financing. There is no information available on how funding was used for these purposes. In addition, MPR funding may be used to supplement the appropriated funding for Section 542 Vouchers. This likely accounts for at least some of the reduction in MPR loan and grant activity in FY 2017.

Section 521 Rental Assistance Funding Slightly Less than Last Year. Section 521 Rental Assistance (RA) obligations comprised \$1.365 billion (302,451 units). This is about \$24.6 million less (659 more units) than last year. RA renewals increased over the previous year (258,342 units in FY 2016 and 271,169 units in FY 2017). Other servicing units decreased to 30,899 units from 42,466 last year. Rental Assistance for "other servicing" units could include sales of inventory properties and transfers of existing Section 515 properties to another owner. There were also 380 units of "new construction" Rental Assistance funding, down from 763 new construction units in FY 2016. The new construction loans funded new Farm Labor Housing units.

Multi-Family Housing Voucher Demand Continues to Increase. There were 5,609 Rural Housing Voucher obligations representing \$22.0 million, an increase of 306 units or \$2.5 million higher than last year. The number and dollar obligations for vouchers has been steadily increasing as more properties prepay their Section 515 loans. Nearly half (\$10.8 million) of the vouchers were concentrated in 7 states (Florida, Indiana, Michigan, Missouri, New York, South Dakota, and Wisconsin). Although the appropriated amount was higher than it was the previous year, the demand for the funding exceeds the amount available. To meet the voucher needs, funding may be transferred from the MPR appropriation, decreasing the amounts available for rehab.

Other USDA Multi-Family Housing Programs. USDA also funded 107 grants through the Housing Preservation Grant program totaling \$4.9 million, an increase of \$1.3 million (5 grants) over FY 16.

The Rural Housing Service (RHS) monthly obligation reports are produced by the Housing Assistance Council (HAC) 1025 Vermont Ave., NW, Suite 606, Washington, DC 20005. The monthly figures derive from HAC tabulations of USDA –RHS 205c, d, and f report data. For questions or comments about the obligation reports, please contact Michael Feinberg at 202-842-8600 or michael@ruralhome.org.

NOTE: FY 2017 Appropriation levels are estimated based on best information available. Actual funding may be different due to prior year carry over (grants only) or flexible funding authority (for example, the Farm Labor Housing funding can be transferred between loan and grant programs) Funding for Multifamily Housing Preservation & Revitalization has similar flexibilities.

ABOUT THE DATA

The USDA Rural Development (RD) Year-End Report presents fiscal year Rural Housing program loan and grant funding activities for most USDA housing programs at the state and national level. These figures derive from HAC tabulations of USDA-Finance Office reports. Most of the data comes from the USDA Rural Development “Report Code (RC) 205– Report of Loan and Grant Obligations, Vouchers, Allotments or Distributions.”

The RC 205 report summarizes the number and dollar amount of the agency’s fund obligations by program and by State. Sections of the report referenced herein are:

RC 205 – C includes data on the USDA housing programs except for programs in the AMAS and Rental Assistance systems.

RC 205 – D includes data on USDA obligations from the USDA Automated Multi-Family Housing Accounting System (AMAS).

RC 205 – F contains summarized Rental Assistance data.

Other data used in this report were provided by USDA’s Single Family and Multi-Family Housing Divisions in the National Office. Examples of this include data on household income for single family housing borrowers and multi-family tenants. USDA Finance Office reports focus on the numbers and dollar amounts of the program loans and grants. Breakout information such as the numbers of new construction and rehabilitated/repaired units financed in Multi-Family Housing complexes comes from the agency’s National Office program staff.

Data on tenant incomes is usually published about 5 to 6 months after the end of the fiscal year in the Multi-Family Housing Occupancy Report.

Limitations of the data

The loan and grant obligation data in this report is based on the fiscal year-end (September 30, 2016) reports. Agency adjustments or corrections to the data after that date are not typically provided to HAC and therefore not available.

Definitions

Allocation – the distribution of congressionally appropriated funds to the States. Most of the Single-Family Housing program funds are allocated to the States by a formula. Multi-Family Housing program funds are not allocated. MFH funds are made available through a Notice of Fund Availability (NOFA) or a Notice of Solicitation of Applications (NOSA).

Obligation – a commitment of program funds to a specific loan or grant applicant.
