

An Update on Maturing Mortgages in USDA's Section 515 Rural Rental Housing Program

Appendix 1

USDA's Section 515 Rural Rental Housing properties are an important resource for many rural households and communities. In 2016, USDA presented estimates of the date when properties would leave their portfolio and potentially lose affordability and some renter protections. HAC examined changes in USDA's Section 515 portfolio during the past five-year period. The analysis identified 921 Section 515 properties that left the portfolio between 2016 and July 2021.

HAC compared USDA's property exit data from March 2016 and July 2021 to determine which properties exited the program. Data was not available on the reasons the properties left.

This is a list of the properties that left the portfolio.
