HAC’s biennial National Rural Housing Conference inspires dialogue, ideas, and action. More than 600 rural housing professionals from across the country will learn strategies from local leaders, hear updates on critical issues, and influence the policy priorities of national leaders. The conference features thought-provoking speakers and panels and more than 30 workshops and courses on topics such as housing finance, veterans housing, and creative placemaking.

HAC’s National Rural Housing Conference is a collaborative effort undertaken by the Housing Assistance Council and our many cosponsors and friends. We hope you will consider being a part of this critical conversation by joining as a sponsor of the National Rural Housing Conference.
