Housing and Community Facilities Programs

SUBJECT: Results of the 2010 Multi-Family Housing Annual Fair Housing Occupancy Report

We are pleased to present the 2010 Rural Development Multi-Family Housing (MFH) Annual Occupancy Report, which includes both Rural Rental Housing (RRH) Section 515 and Farm Labor Housing (FLH) Section 514 demographics. These results are based on April 2010 data from the Multi-Family Information System (MFIS).

This Report presents data from the past 3 years, comparing information from year 2008 to 2010. Attachment A is a summary of Report results. Highlights of this year's data include:

- The total number of rental properties has decreased by .93 percent since last year or a decrease of 153 Section 515 properties and an increase of five FLH properties. The number of rental units in the MFH portfolio has decreased by 1.29 percent. Overall, we saw a reduction of 148 properties in the past year, representing about 6,000 apartments.
- The current population shows an overall reduction in the White population and a small increase in Multi-racial households. The breakdown now consists of: White, Non-Hispanic households: 68.63 percent, Black Non-Hispanic households: 17.96 percent; Hispanic households: 10.42 percent; Asian, Pacific Islander households: 0.50 percent; American Indian/Alaskan Native households: 1.62 percent; Multi-racial households: 0.87 percent.
- There was a slight decrease in very-low income households, which represent 93.64 percent of all households. Low-income households represent 5.39 percent of the total.
- Average household incomes are up to \$11,364 from \$11,258 (a 1.94 percent increase); the average income of Rental Assistance (RA) households increased to \$9,388 from \$9,199 (a 2.05 percent increase).

EXPIRATION DATE:
August 31, 2011

FILING INSTRUCTIONS:
Housing Programs

- Female-headed households continue to represent the majority of households (71.58 percent). There was no appreciable change in the percentage of elderly/disabled households vs. non-elderly but there was a slight increase in the disabled population within the elderly/disabled households.
- Overall, as a percentage of all households, since last year: the tenant characteristics show that female-headed households remained approximately the same, there are fewer elderly households, and more disabled households. Generally, over the last several years, the portfolio continues to favor elderly/handicapped versus non-elderly households.

In comparing the RRH Section 515 portfolio with the FLH Section 514 portfolio, it is interesting to note:

- FLH members per household are about twice the size of the average household in the portfolio. Average farm labor income is more than one and half times that of the average MFH portfolio household. Farm labor income for RA households, \$14,259 is significantly higher than the average RA income for the RRH portfolio, \$9,230.
- Elderly/disabled households make up 59.02 percent of the RRH portfolio, but only 16.15 percent of the FLH households.
- RA households make up 64.7 percent of the RRH portfolio and 63.1 percent of the FLH households. Both RRH and FLH showed a slight increase in RA households compared to last year. Overall, 79 percent of households receive some kind of subsidy. This is an increasing trend in the portfolio.
- White households constitute 70.66 percent of the RRH portfolio, while minorities constitute 93 percent of the FLH households.

The report also shows that we have a greater percentage of households using RA compared to last year. Rent overburdened households (those paying more than 30 percent of their income towards rent) continue to decline, though at a slower rate than 2004-2007 when the unused RA policy first went into effect in 2005, and fewer rent overburdened tenants, demonstrating continued success in our objective to utilize all available RA units.

If you have any questions, please contact Stephanie White at 202-720-1615 or Janet Stouder at 202-720-9728.
